

Car Load of White Loaf Flour This Week

Everything is soaring higher and higher every day. But we will not need the machine long for as it happened we have bought several grocery stocks, before the advance. Something like

3 Car Loads of Can Goods

If it were possible to load and ship it in car lots. As soon as our futures arrive we will make prices and if you will watch the market and our adds you can save money.

This is no idle talk. If all the people had taken our advice two weeks ago and bought they would have saved thousands of dollars, and still prices of today will look cheaper a little later on. If you wish to give us your order now we will make prices and deliver goods on arrival. That is the way we always do. We buy our goods in the spring for fall delivery. A partial list of our purchases:

- 300 Cases of Tomatoes, No. 3.
- 50 Cases of Tomatoes, No. 2.
- 300 Cases of Can Corn, No. 2.
- 50 Cases of Pie Peaches, No. 3.

MISSOURI NOTES.

The old flour mill at Jerico, Cedar County, was destroyed by fire one day last week. Several other smaller buildings were destroyed at the same time.

Considerable interest was created in Warrensburg one day last week by the exhibition of a milking machine. The power was furnished by a gasoline engine.

Twenty-five head of horses averaged \$235 a head at a sale held by Miss Lulu Long at Longview farm last week. The highest price paid was \$700, which was paid by an Excelsior Springs buyer.

Liberal, down in Barton county, is suffering from a plague of rats and the citizens are clamoring for a rat killing day, when everybody will turn out and exterminate the pests, says the News. They may be seen playing around the yard like rabbits most any day.

C. J. Earhart of Dennegan, a patient in the state hospital at Nevada was killed at 2:30 o'clock Saturday morning by another patient, Hervey W. Butterfield. The attack was made while the watchman was in another ward. Earhart was beaten and choked.

For every member of his household to have lived to be more than 90 years old is a distinction the Ava Herald accords Green Rounner of that town. Mr. Rounner is 93 years old. His wife died a year or two ago, when she was 93, and his only sister lived to be 98.

J. F. Weaver, editor and owner of the La Plata Republican and vice president of the Farmers and Merchant's Bank at La Plata, dropped dead three weeks ago of cancer. He had been in poor health.

The Larabee Flour Mills Association has recently closed the contract for the erection of a 5000 barrel mill and elevator at St. Joseph. With the exception of a mill at Minneapolis, this will be the largest mill west of Buffalo, N. Y. It is to cost half a million dollars.

From his flock of 250 domesticated wild geese on his farm near Gower, Millard Whitson markets annually about five hundred pounds of feathers. The feathers average seventy-five cents a pound, and every now and then a pair of birds is sold, adding about \$5 to the Whitson treasury.

Christ Hensen, an aged recluse, died in Sedalia Saturday and was supposed to have left nothing of value. Later Public Administrator H. R. Camp and others discovered property holdings and money aggregating \$18,200. All of the valuables were found in an immense jug placed inside a concrete covering.

Draw a circle with a 6-mile radius, and if the center is the present home of Thomas Alford of Cape Girardeau, you will have circumscribed the territory in which Mr. Alford has spent the seventy-two years of his life. Only on very brief and special trips has Mr. Alford gotten outside of the circle, and then he did not go very far away from home.—St. Joseph Observer.

WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Butler people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

Mrs. Chas. R. Smith, 801 W. Pine St., Butler, says: "I had kidney trouble from the time I was a child. I had a bearing-down ache through my back day and night. When at work it seemed as though I couldn't keep up. I could find no position in which I could rest at night. In the morning when I got up I could scarcely move, as I was so sore and lame. My kidneys acted too often and the secretions were unnatural. I was nervous and run down and often black specks came before my eyes and sometimes I could hardly stand because of dizziness. A couple of boxes of Doan's Kidney Pills, procured from the United Drug Co., gave me complete relief. I have used the same since with just as good results."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Smith had. Foster-Milburn Co., Props., Buffalo, N. Y.

Nyhart Sunbeams.

I don't feel very sunny today. I've thought till my brain is dizzy in trying to find a suitable way to express what I think of my "Lizzie." When the weather is warm she works like a charm, as she glides like a bird the hills over but when it is cool, the man is a fool, who tries without "cussin" to move her.

Did you notice "Sunny Jim's column" last week? Right on the front page. Now I call that going some. At first they put me as far out "o" sight as possible but I wouldn't stay put. No sir, not me. I belong in front, where in any sort of a scrimmage you will always find the Irish.

I just read in a paper that an eminent M. D. has discovered that the "automobile" is to blame for "Infantile paralysis." Well, by golly I could have told him some time ago that "old folks" are often paralyzed by an automobile usually when a bill for repairs is presented.

And after Nov. 7th what—war, or peace and prosperity—which do you want? Look well to your ballot and vote for the good of the whole country.

If ten robbers cost one hundred and twenty-five dollars in Pennsylvania, what will a good beef steak cost next spring in Butler? Ask the butcher.

If you notice Sunny Jim strutting around with his head held high like he was looking for an air ship or a swarm of bees don't get excited, he ain't any more crazy than usual, but "he gosh" he is the proudest grand dad in Peaceful Valley. A little girl arrived at the home of Mr. and Mrs. C. F. Gardner of Newton, Kansas. Mrs. Gardner is the daughter of Mr. and Mrs. Sunny Jim of Butler, Mo. Now if you think Jim was sunny before just watch his smile when you meet him.

Say, if I had a disposition like some folks I know I'd have it "amputated." What's the use of always looking for the dark side of things. Not many of us but that could be blue and make others miserable. Nobody wants to listen to your tale of woe, and it don't cost a cent and not much effort to be bright and cheerful and it often smooths the way. Try it and see.

By the way, wonder what has become of "On the Wing"? Has he died of overfeeding or has he taken the wings of the morning and flown away—been mistaken by a sportsman and shot for a "canvassack"?

The most effective "hair raiser" ever used in this country was introduced by the Indians several years ago. They could "raise" a full head of hair in a jiffy. Only one application was necessary. It was usually a painless operation as the subject was generally "immune" from pain. Ever hear about it?

Tooth picks have advanced in price along with other eatables. Better use a splinter or a broom straw. Me? Oh, I don't eat anything but soup.

I read once upon a time either in "Hicks Almanac" or the Rockville Booster" words like these: "He laughs best who laughs last." Maybe it was in some other book I saw it. Anyway I don't aim to laugh much till after Nov. 7th, might have to take it back.

Mr. and Mrs. Sunny Jim, great granddad Pyle, Mrs. McGaughey and daughters, Misses Kate and Mame, motored to Anmore last Sunday and spent a pleasant day at the beautiful suburban home of W. J. Bard. I tell you it is nice to be able to number among your friends such folks as W. J. Bard and family. It is so.

Small wonder it is that the Butler Weekly Times is so popular. With such a galaxy of eager willing pencil pushers I doubt if an "item" worth while escapes its pages. There is perhaps an element of selfishness in most of us and the reason we work so hard (and it is hard work for Jim) is because we want a good paper in every home and also because the editor appreciates our efforts, crude though they may be.

Now I call that sort of talk "fetchin'" as the fellow said who took a dose of "ippecac" instead of "paregoric."

I wish I could write neighborhood news like the other correspondents do, but I can't. You see my head "sorter" runs to a "peak" and at the apex my brain is supposed to be located and I look at things from different angles at the same time. Hence I am afraid to say who hauled "haws" last week or "who" and "so" eat up last week's provisions that some one else had stored away for winter use for fear I

might get mixed and hurt some body's "feelings" by not mentioning all who were there. See?

After the election I imagine Blow Hard Teddy will send to Whiskers Hughes a message like this: "Come on the wings of the morning, lay a straight course for the east. Give me a few hours warning to rustle a "crow" for the feast. Hop on a freight or an auto, get here if you can before noon. I'm a "heartbroken" man but I'll be there, if I can, to meet you. Hurry up, come soon."
